

Pre-Wiring: Residential and Commercial

Liptons offers a complete pre-wiring, and rough-in structured wiring service. We are equally proficient in both residential, and commercial/business applications.

Our trained installers will professionally run high-quality wiring to accommodate present and future audio./video, data, and communications needs.

Wiring infrastructure for LAN networking, room controls, multi-room indoor and outdoor speaker wiring, surround sound, home theater, monitor cameras, lighting control, CATV and satellite wiring, CAT 5/ CAT 6 data networking, HDMI, and other communications needs. No job is too big or too small!

Full electrical and drywall services are also available. Just contact Liptons in person, by phone, or by email, to discuss your plans.

Full on-site estimates are available for your consideration.
